

CITIZEN'S POLICE ADVISORY COMMITTEE
Round Hill (P-5)
Alamo, California

Minutes of Meeting on September 8, 2021

Committee Members in Attendance: Rick Kopf, Lee Mlejnek, Mark Young, Don Magalhes, Tyker Fagg, Jason Dudum, Mark Cordone

Committee Members Absent: Rich Johnson, Jason Hill, Linda Schultz

Guests in Attendance: Deputy Brian Berry, John Anderson (Flock Safety Territory Sales Manager Northern California)

The P-5 Advisory Committee met at Round Hill Country Club. Rick Kopf called the meeting to order at 7:02 PM. Minutes of the August 11, 2021 meeting were approved and passed unanimously.

Public Comment: John Anderson (at the invitation of Tyker Fagg) gave a presentation to the Committee about the Flock Cameras. In the July meeting Lt. Wooden suggested the use of the Flock Camera system as an adjunct to policing the Round Hill area. In John's presentation the advantages of the system were explained and included the type and range of information recorded by the cameras and the ability of the software to make access to pertinent criminal activity immediately available to law enforcement with minimal search time. These Cameras are being used in over 1400 cities in the United States in both the private sector and by law enforcement to apprehend individuals involved in criminal activity at an increased rate over existing systems. Public privacy can be protected with access limited to law enforcement personnel and opt out options are available for local area residents. Many questions from the Committee were asked and answered and the Committee thanked John Anderson for his thorough explanation of the system.

Financial Report: Mark Young discussed the Financial Report handout. He has received from the County detailed FY accounting summaries for the P-5 Service Account and was able to reconcile them with existing P-5 records. There was a revision to the FY 20-21 with some differences to the previously reported numbers. This resulted in a \$30,000.00 decrease to the Reserve Account. The revised Reserve balance numbers remain positive through FY 29-30.

P-5 Activity Report: Deputy Berry reviewed the Police Report. The report of a front door kicked open was investigated as a residential burglary although no evidence could be found that the suspect made entry. High visibility remains a primary objective with monitoring traffic and speeds in Round Hill especially with schools back in session. Time spent in out of area calls continues to increase with staff shortages due to Covid a primary cause. New personnel will not be on staff until November at the earliest so expect time spent with out of area calls to remain high. The radar trailer is scheduled to be utilized 50% of the time in Round Hill with the remaining time deployed in the Alamo area outside of Round Hill.

The new Police Vehicle was delivered in August. The Chevrolet Tahoe is a significant upgrade to prior vehicles and Deputy Berry reported that its increased utility is appreciated by the Deputies.

In the month of August Sheriff's Volunteers patrol was not updated over the July figures.

Old Business: The use of The Flock Cameras was discussed as noted in the Public Comment section.

New Business: Mark Cordone reported that he continues to see excess speeds in the Round Hill neighborhood and discussed enforcement with Deputy Berry.

The meeting was adjourned at 8:28 PM

Respectfully submitted by Lee Mlejnek.
